Green Monkey™

biodegradable
#5559PF Green Monkey

- Regular nitrile disposable gloves take more than 200 years to breakdown. Green Monkey™ 4 mil nitrile disposables will break down in only 8-11 years due to an additive in the nitrile formulation. Green Monkey™ nitrile gloves have the same performance properties as regular nitrile disposables.

Sizes: S-XXL

1 organic additive introduced

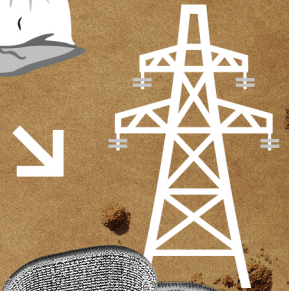

2 worker uses gloves and then disposes them

3 additive attracts microbes in landfill that turns Green Monkey™ into biogas (10 years - ASTM D5526)

4 modern landfills capture methane production and converts to energy and fuel

FROM PLASTIC BOTTLES TO GLOVES

1) Recycled plastic bottles are cleaned and crushed at a facility

2) Plastic chips are processed and melted into tiny pellets

3) Pellets are spun into WasteNot™ polyester yarn

4) WasteNot™ yarn is used in the spandex backs of our new seamless knit garden gloves

#375 Karma

- 15g WasteNot™ polyester seamless knit made from 25% (+/- 2%) recycled post consumer PET bottles (one 500ml plastic water bottle used in one pair of gloves)
- Foam nitrile palm with diamond embossed pattern for a sure-grip in wet conditions

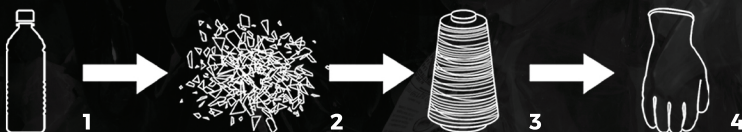

Sizes: S-L

#373 Stealth Hero

- 15g WasteNot™ polyester seamless knit made from 25% (+/- 2%) recycled post consumer PET bottles (one 500ml plastic water bottle used in one pair of gloves)
- Foam nitrile palm with diamond embossed pattern for a sure-grip in wet conditions

Sizes: S-XXL
