

Garden Glove Series Vol. 23

335 EverGreen

We're excited to introduce **EverGreen** to our eco-conscious Homegrown™ collection. They're made with WasteNot™ yarn, which is spun from recycled plastic water bottles. In addition, the flat nitrile coating is engineered with Reclaim™ technology which accelerates biodegradation and converted to biogas and renewable energy in smart modern landfills. **EverGreen** is not only a big step up for the planet, your customers will be sure to love the modern print and the snug knit wrist will keep dirt out. **Available in S-L.**

318 Cool It

197 You Grow Girl

You Grow Girl was updated to be more environmentally sustainable as 96% of the spandex material is made from yarn spun from recycled water bottles. The Dryhide™ water resistant goatskin leather will degrade naturally in landfills. The extended 3" cuff and shirred elastic wrist will help keep the dirt out while making it easier to take it on and off. **You Grow Girl** redesign is perfect for hard working gardeners that make informed choices about the products they buy and their environmental impact. **Available in S-L.**

376 Rosé

The latest glove style to join our eco-conscious Homegrown™ line is **Rosé**. Made with WasteNot™ yarn, each pair of gloves diverts one 500 mL plastic bottle from the landfill. The sandy latex finish has had the Reclaim™ additive added to it so biodegradation will accelerate in landfill conditions and turned into biogas which can be harnessed as energy. Not only is **Rosé** an eye-catching pink, they're treated with a water-resistant coating which beads off water and will last for up to 5 washes. Your hands will stay cool and comfortable enough that you can wear them all day long. Wait for it... Rosé All Day. **Available in S-L.**

5557PF Green Monkey®

The theory of evolution is alive and well at Watson Gloves. The Monkey Wrench™ gloves have evolved, they're now **Green Monkey™**! The color will remain the same, but we've made them better for our planet. Now added to our **Green Monkey™** family is the orange, heavy duty 6 mil thick powder free nitrile gloves with a *sure-grip* pattern to ensure a good grip in wet or oily conditions and a 9.5" rolled cuff will keep dirt out. They are treated with a Microbe-Philic **Reclaim™** additive so they will breakdown in landfill conditions in approximately 10 years, versus 200 years for regular nitrile disposable gloves. In landfill conditions the gloves don't breakdown into little pieces of plastic but are actually converted into biogas, like other organic materials. 50 gloves per dispenser. **Available in S-XXL.**

337 Stealth Hybrid

In innovating the **Stealth Hybrid** we've taken a two prong approach to combating plastic pollution. Not only are they made with WasteNot™ yarn, which is spun from recycled plastic water bottles, but they will biodegrade at an accelerated pace in landfill conditions thanks to the Reclaim™ in the latex coating resulting in Gloves to Energy, Ta da! The double dipped crinkle latex coating is extra tough which will allow you to take on those hard jobs even in the rain because the **Hybrid** is also treated with a special water-resistant coating that will bead off water and last up to 5 washes.

Rainy Day Gardener

387 Stealth Orange Crush

You're going to absolutely crush it with our new **Orange Crush** gloves. The first layer is a fully dipped flat nitrile and then the second layer has a sandy nitrile finish, so you'll get a superior grip in dry, wet or even oily conditions. They're also coated with a water resistant treatment that will last for up to 5 washes so the rain won't slow you down. Offering excellent Ansi/ISEA 105-16 level A5 cut protection, **Orange Crush** will allow you to take on the toughest jobs and the snug knit wrist will keep dirt out. One thing they won't crush? The environment. You can feel good picking up your Orange Crush gloves as the WasteNot™ yarn is spun from recycled PET water bottles. In fact, every pair keeps one 500ml water bottle out of the landfill.
