

TIMBER SERIES GUIDE | VOL. 3

KEEPING OUR FUTURE IN

Safe Hands

BY INVESTING IN OUR PEOPLE TODAY

At Watson Gloves we live, educate and preserve the culture that we have established and cultivated since 1918.

Our mission is to elevate the glove industry with innovative and sustainable hand protection by protecting the people who work with us, the customers who buy from us and our environment in which we live in.

ELEVATING INDUSTRY FOR THE GREATER GOOD THROUGH

SUSTAINABILITY

and innovation

PROTECTING PEOPLE AND OUR PLANET

**WATSON**
GLOVES®
Quality since 1918

GLOVES TO ENERGY

Biodegradation only begins when the gloves are discarded in anaerobic landfill conditions. Once the biodegradation process begins, the Reclaim™ accelerated additive in the gloves will ensure that they do not break down into microplastics, but are converted into biogas. Modern landfills capture methane production and converts it into clean energy that powers our homes, businesses and communities. (ASTM D5511 shows up to 14.1% biodegradation in 172 days).

CHOOSING YOUR NEXT CUT GLOVE WHAT TO KNOW BEFORE YOU BUY

LISTEN UP!

Did you know that the glove cut standards have changed? ANSI has introduced a new version of the ANSI/ISEA 105 standard to create consistency between the ANSI and EN 388 testing methods as well as to account for recent advances in technologies and glove fabrics. They've introduced a whole new rating system ANSI (A1-A9). Check out the chart below to figure out which cut level will give you the protection you need.

CHOOSING YOUR CUT LEVEL

		(F2992-15) ANSI	EN388 (ISO 13997)		
		ANSI A#	EN 388 XXXXX		
		Cut rating from A1-A9 (9 levels)	Measured in Grams of Force 1gf = 0.0098N	Measured in Newtons 1N = 101.97gf	Cut rating from A-F (6 levels) *proposed
Materials					Application
Metal Mesh	6000+ gf	A9			Extreme Glass Manufacturing, Recycling Sorting, Metal Fabrication
	5000 - 5999 gf	A8			
Engineered Yarns	4000 - 4999 gf	A7			High Automotive Assembly, Pulp Paper, Aerospace Industry
	3000 - 3999 gf	A6		F 30 N (3059 gf)	
	2000 - 2999 gf	A5		E 22 N (2243 gf)	
	1500 - 1999 gf	A4		D 15 N (1529 gf)	Moderate Manufacturing, Warehouse, Food Prep, Packaging
	1000 - 1499 gf	A3		C 10 N (1019 gf)	
Synthetics Polyester/Nylon	500 - 999 gf	A2		B 5 N (309 gf)	Low Hazards General purpose material handling with sharp edges
	200 - 499 gf	A1		A 2 N (203 gf)	

* Watson Gloves hereby warns all potential users of its cut resistant products that they are not suitable for all uses.

* The EN 388 Standard is still in the revision process and will be released in 2016

watsongloves.com

IMPACT STANDARDS

BACKGROUND

There are many gloves that claim they provide impact resistance and are viewed equally when realistically one glove could provide you with more protection than the other. The European market released an impact standard in 2016. It only includes knuckle testing (excludes the fingers) and is rated with a Pass or Fail.

The North American market does not currently have an impact standard which is why the ISEA formed a committee to start building one that addressed the challenges with the EN388. The new ANSI/ ISEA 138 standard will help workers make an educated decision on which glove to choose which will provide them with the best level of impact protection for the job.

ANSI/ ISEA 138 IMPACT STANDARDS

- Assessment of performance : Peak Transmitted force
- Testing is done by an independent ISA T7025 Lab
- Fingers and knuckles are tested (as shown in Figure 1)
- Lowest performing areas defines performance
- 3 performance levels (higher the level indicates a greater degree of protection)
(as shown in Figure 3)

TESTING METHODOLOGY

- Flat 80mm diameter striking face
- Palm side of glove removed
- Impact locations marked on glove
- Samples mounted centrally on hemispherical (100mm radius) anvil
- 2.5kg mass dropped with an impact energy of 5J
- Peak transmitted force recorded by force transducer beneath anvil
- Lower transmitted force = greater degree of protection and a higher performance level
- Impact test performed on knuckles and fingers separately

MARKING

Depending on the performance level the following pictogram will be shown on packaging and marketing material:

Figure 2

Figure 1

Performance Levels in Standard

Performance Level	Mean Transmitted Force	Increasing protection
ANSI / ISEA 138 	≤4 kN	
ANSI / ISEA 138 	≤6.5 kN	
ANSI / ISEA 138 	≤9 kN	

Figure 3

TABLEAU DES GRANDEURS

WATSON

SIZING CHART

S
M
L
XL
XXL
XXXL

Place hand here. Align knuckle of index finger to red line.
Placez votre main ici. Alignez la jointure de votre index sur la ligne rouge.

To determine the best fit

Place your right palm on the size chart with your fingers closely together.
Measure the width of your hand by aligning the knuckle of your index finger beside the red line.

Pour déterminer la bonne grandeur

Placez votre paume droite sur le tableau des grandeurs, vos doigts rapprochés.
Mesurez la largeur de votre main en alignant la jointure de votre index sur la ligne rouge.

Using a ruler

To determine hand size with a ruler keep fingers close together and measure the width across the knuckle region. Use the chart above to match the hand width measurement to its corresponding size (e.g. a hand measuring somewhere between 7.5 cm and 8.5 cm will require a medium size glove).

5 cm

on site S.W.A.T AUDIT!

Call to book a no cost, no obligation Watson Gloves S.W.A.T audit.
It's an easy **4 step process** to reduce injuries, consumption and cost:

1. ASSESS

- What gloves are currently being used
- What is the injury rate and the cost of these injuries to the employer and employee in lost workdays, efficiency, etc?

2. ONSITE AUDIT

- Assess your operations and examine glove usage throughout the facilities to determine potential opportunities for improvement
- S.W.A.T. members interview management and key employees to determine glove usage, job responsibilities and training

3. EVALUATE & CONSOLIDATE

- It is important to properly fit workers with gloves that are correct for the specific jobs, prevent injuries, while maintaining the highest quality in the work place
- Written recommendations on how to reduce injuries, consumption and costs as well as how to consolidate your current glove offering will be presented to you in a professional report

4. FOLLOW-UP

- After the S.W.A.T program is implemented, we will continuously follow-up with you to ensure our recommendations are successful and make continuous improvements to the program

Our Story

Watson in a Nutshell

With a century of experience, Watson Gloves is Canada's single source for hand protection at work, at home, at play. Our team of glove specialists gets tremendous satisfaction from working with our customers to find the perfect hand protection for just about any task imaginable. Whether we source our gloves from the world's finest manufacturers, or hand-craft them in our local factory, every pair of gloves we sell has been selected for top-of-the-line materials, design and craftsmanship. Try on a pair of Watson gloves. Your hands will thank you!

Two Man Show to International Operation

In April 1918, John Watson and Wayne Stanley started a small business selling hand-crafted gloves to Vancouver's dock workers. Today, over 100 years later, Watson Gloves has grown across Canada. We are among the country's leaders of distributing hand protection; offering the widest range of quality gloves for work, home and play.

How did we get here? We have stayed true to our founders' belief that quality materials and above-and-beyond customer service go hand-in-glove. We still make gloves. In fact, our artisans – with an average 20 years' experience – put the same level of dedication and craftsmanship into every pair of gloves we make, as did our founders.

Perhaps more importantly, we have expanded our horizons to keep up with our customers' changing needs. Our talented buyers travel the world over in search of the most innovative materials and designs so that we can offer the best gloves for any task: at work, at home, at play. From bustling cities to remote corners of our country and countries across the Atlantic, our team of sales reps and efficient distribution system make it easy to protect the hands of our customers.

At Watson Gloves, we do one thing, and we do it extremely well: we are the glove experts. Mr. Watson and Mr. Stanley would be proud to know that, even as we continue to grow, we continue to earn our reputation as Canada's single source for hand protection.

Our Commitment

At Watson Gloves, quality materials and above-and-beyond customer service go hand-in-glove. You can count on Watson for:

Quality Every pair of gloves we sell has been hand-selected for top-of-the-line materials, design, and craftsmanship.

Service with a Smile Our experienced team of specialists is committed to our customers' complete satisfaction with each and every pair of Watson gloves purchased.

Innovation We commit to staying one step ahead of our customers; anticipating their needs and bringing the most advanced gloves for just about any job imaginable.
