

318 Cool it

STAY COOL AND COMFORTABLE

homegrown

ECO KOOL KNIT WASTENOT™ YARN

ECO Kool Knit WasteNot™ performance yarn is made from 24% (+/- 2%) recycled post consumer PET bottles and is moisture wicking to keep hands cool and dry when working in hot climates

BIODEGRADABLE LATEX

Eco-conscious foam latex coating engineered with Reclaim™ technology accelerates biodegradation in landfill conditions

TOUCHSCREEN

Conductive coating on palm and fingers can be used on all touchscreen devices

SNUG-FITTING KNIT WRIST

Snug-fitting knit wrist keeps out dirt and debris

MADE FOR A WOMAN

Made for a woman's hand

Billions of plastic bottles go into landfills every year. But now you can do something about it. Our WasteNot™ yarn is made from 100% recycled PET bottles. PET stands for polyethylene terephthalate which is a form of polyester. Plastic bottles made from PET are recycled and turned into polyester to make gloves.

In addition, our latex gloves will break down in landfill conditions due to the Reclaim™ additive in the latex formation. Biodegradation only begins when the gloves are discarded in landfills conditions (ASTM D5511). Once the biodegradation process begins, the Reclaim™ additive will ensure that they do not just break down into smaller pieces, but are actually converted to biogas like other organic materials creating a circular economy.

ASTM D5511 shows up to 12.6% biodegradation in 225 days
