

336 Stealth Vapor

Stay cool and comfortable with bio-based polyester

WATSON
GLOVES
Quality since 1918

1 KOOL KNIT™ YARN

15gg Kool Knit™ performance yarn is moisture wicking to keep hands cool and dry when working in hot climates

2 BIO-BASED POLYESTER

Seamless knit liner made from 23% bio-based polyester that is derived from corn starch (9% carbon content by total glove weight)

3 NITRILE PFT™ COATING

Nitrile PFT™ (Premium foam technology) coating provides excellent dry and oily grip. Minimized soapiness in wet applications

4 TOUCHSCREEN COATING

Conductive coating on palm and fingers can be used on all touchscreen devices

5 ERGONOMICALLY FORMED

Ergonomically formed to reduce hand fatigue

6 SNUG-FITTING KNIT WRIST

Snug-fitting knit wrist keeps out dirt and debris

7 ADDITIONAL

Certified OEKO-TEX® Standard 100

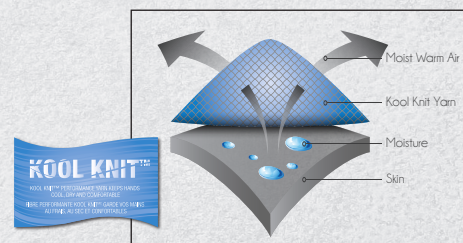

Production of yarn requires 30% less energy and reduces CO₂ emissions by 63% (compared to Nylon 6).

A bio-based product is comprised partly of either biological materials, including renewable domestic agricultural materials such as corn or sugar cane, forestry, or marine materials such as plants. Bio-based fibres provide an alternative to petroleum derived products such as virgin nylon. Using bio-based fibres reduces CO₂ emissions during production versus virgin nylon. ASTM D6866-18 shows 9% bio-based carbon content. Bio-based polyester yarn is certified by the USDA.

COATED

**REDUCES 266g OF
CO₂ EMISSIONS/PAIR**
