

372 Stealth Avenger

Made with recycled materials

BIODEGRADABLE NITRILE

Eco-conscious nitrile coating engineered with Reclaim™ technology accelerates biodegradation in landfill conditions

RECYCLED POLYESTER

15gg WasteNot™ seamless knit made from 40% (+/- 2%) recycled post consumer PET bottles

SANDY NITRILE FINISH

Sandy nitrile finish provides a *sure-grip*

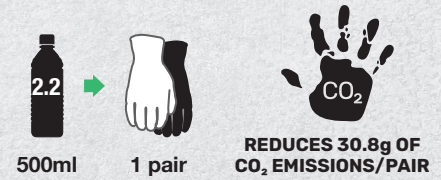

SNUG-FITTING WRIST

Snug-fitting knit wrist keeps out dirt and debris

Billions of plastic bottles go into landfills every year. But now you can do something about it. Our WasteNot™ yarn is made from 100% recycled PET bottles. PET stands for polyethylene terephthalate which is a form of polyester. Plastic bottles made from PET are recycled and turned into polyester to make gloves.

In addition, our nitrile gloves will break down in landfill conditions due to the Reclaim™ additive in the nitrile formation. Biodegradation only begins when the gloves are discarded in landfill conditions (ASTM D5511). Once the biodegradation process begins, the Reclaim™ additive will ensure that they do not just break down into smaller pieces, but are actually converted to biogas like other organic materials creating a circular economy.
