

# 5559PF Green Monkey

**LANDFILL BIODEGRADABLE NITRILE DISPOSABLE**

## LANDFILL BIODEGRADABLE 1

Landfill Biodegradable nitrile glove engineered with Reclaim™ technology uses a unique formulation but maintains the same physical properties as regular nitrile

## 4.6 MIL NITRILE 2

Teal powder free nitrile offers superior strength with excellent resistance to punctures and tears, chemically resistant to oils, solvents and grease

## 9.5" ROLLED CUFF 3

Rolled cuff prevents liquid from getting inside the glove and adds extra strength to the cuff

## ADDITIONAL 4

AQL 1.5, ASTM D6978 - resistance against fentanyl

## ADDITIONAL 5

100 gloves per dispenser

## LANDFILL GAS-TO-ENERGY

Regular nitrile disposable gloves take more than 200 years to breakdown. Watson Gloves Green Monkey™ nitrile disposables will break down in only 8-11 years due to the Reclaim™ additive in the nitrile formulation. Green Monkey™ nitrile gloves have the same performance properties as regular nitrile disposables. Biodegradation only begins when the gloves are discarded in landfills conditions. Once the biodegradation process begins, the additive in the Green Monkey™ nitrile disposables will ensure that they do not just break down into smaller plastic pieces, but are actually converted to biogas like other organic materials. ASTM D5511 Shows up to 78% biodegradation in 986 days.

## DISPOSABLE
