

5557PF Green Monkey

LANDFILL BIODEGRADABLE NITRILE DISPOSABLE

1 LANDFILL BIODEGRADABLE

Landfill Biodegradable nitrile glove engineered with Reclaim™ technology uses a unique formulation but maintains the same physical properties as regular nitrile

2 6 MIL POWDER FREE NITRILE

6 mil heavyweight, powder free nitrile is exceptionally durable with superior abrasion and puncture resistance

3 ROLLED CUFF

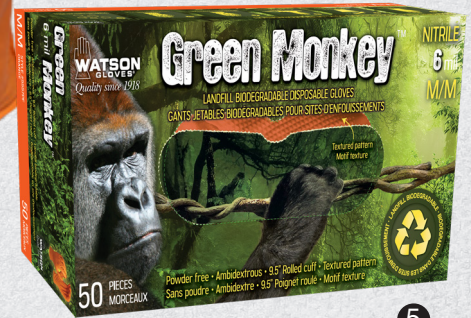

9.5" rolled cuff for greater strength and higher wrist protection

4 TEXTURED PATTERN

Textured pattern provides a *sure-grip* in oily and wet applications

5 ADDITIONAL

50 gloves per dispenser

HOW IS GREEN MONKEY LANDFILL BIODEGRADABLE?

Regular nitrile disposable gloves take more than 200 years to breakdown. Watson Gloves Green Monkey™ nitrile disposables will break down in only 8-11 years due to the Reclaim™ additive in the nitrile formulation. Green Monkey™ nitrile gloves have the same performance properties as regular nitrile disposables. Biodegradation only begins when the gloves are discarded in landfills conditions. Once the biodegradation process begins, the additive in the Green Monkey™ nitrile disposables will ensure that they do not just break down into smaller plastic pieces, but are actually converted to biogas like other organic materials. ASTM D5511 shows up to 56% biodegradation in 772 days.
