

# 321 Unicorn

Bio-based nylon made from corn

## BIO-BASED NYLON

15gg seamless knit liner made from 17% ReStalk™ bio-based nylon, that is derived from corn husks and stalks, provides 4-way stretch for maximum comfort

## FOAM NITRILE PALM

Molecule foam nitrile palm coating reduces water consumption by 80% during the manufacturing process versus regular nitrile

## ERGONOMICALLY FORMED

Ergonomically formed to reduce hand fatigue

## SNUG-FITTING KNIT WRIST

Snug-fitting knit wrist keeps out dirt and debris

## MADE FOR A WOMAN

Made for a woman's hand

A bio-based product is comprised partly of either biological materials, including renewable domestic agricultural materials such as corn or sugar cane, forestry, or marine materials such as plants. Bio-based fibres provide an alternative to petroleum derived products such as virgin nylon. Using bio-based fibres reduces CO2 emissions during production versus virgin nylon. ASTM D6866-18 shows 17% biobased carbon content.

REDUCES 32.74g OF CO<sub>2</sub> EMISSIONS/PAIR

Bio-based Nylon

## COATED
